Gods and goddesses

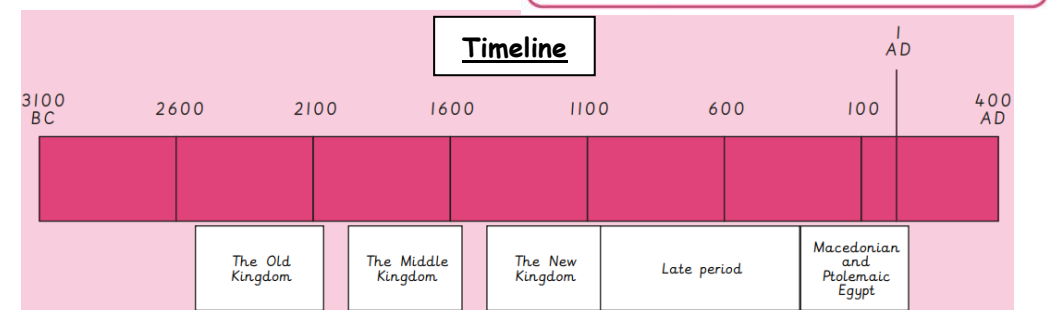

The ancient Egyptians worshipped over 1,500 gods and goddesses, responsible for all aspects of daily Egyptian life. For example, Thoth was the god of writing. Temples were built for the gods, and festivals were dedicated in their honour.

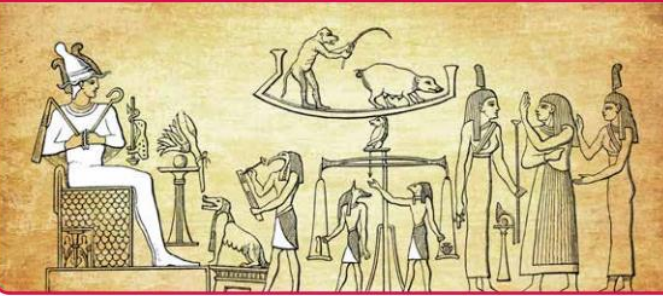

The afterlife

The Egyptians believed that after a person died, they travelled to the afterlife - a kind of paradise or heaven in which people became immortal. The journey to the afterlife was full of challenges, and at its end, the god Osiris decided whether a person would go to the afterlife or the underworld.

Weighing of the heart ceremony

The ancient Egyptians thought the heart recorded all the good and bad things a person did. If the heart weighed the same as the Feather of Ma'at, the person went to the afterlife.
